The “5 don’ts” to seeing and recognizing angels
The “10 keys” to trust building
Epilogue

Power quote #1

Behold, I send an Angel before [you], to keep [you] in the way, and to bring [you] into the place which I have prepared.
Exodus 23:20 (KJV)

Power quote #2

Be not forgetful to entertain strangers: for thereby some have entertained angels unawares. *Hebrews 13:2 (KJV)*

Power quote #3

Angels are glorious creatures. When seen in their true

state, they are beings of indescribable glory. *Lessons from my guardian angel*

Power quote #4

Angels are entirely devoted to God. Their faithfulness toward him is boundless and absolute. Even if, for example, an angel doesn't like a particular assignment, they will faithfully accomplish their mission because they know that out of the billions of people on Earth, their charge is the one that they are supposed to watch over. *Lessons from my guardian angel*

Power quote #5

God, who knows his creation perfectly, assigns a specific angel to a specific person. There is nothing haphazard or random about this process. Just because the vast majority of us are oblivious to or vaguely aware of the fact that guardian angels exist doesn't mean that God neglects to attend to the minutest of details in their and our regard. *Lessons from my guardian angel*

Power quote #6

Angels are as loving as they are powerful. They take great pleasure in loving us and fellowshiping with us. *Lessons from my guardian angel*

Power quote #7

There are places on earth that are "thick" with corruption,

greed, coarseness and abuse. There are work environments where the exploitation of employees is the norm. God sends his divine emissaries to these spiritually dark places as light-bearers who bring hope to the hopeless and love to the loveless. *Lessons from my guardian angel*

Power quote #8

Angels give of themselves. Altruism is the opposite of selfishness. To be altruistic means to respond to your fellow servants' needs. We are erroneously taught that in order to succeed in life we must be selfish. The opposite is, in fact, true. *Lessons from my guardian angel*

Power quote #9

When Abraham sat inside the door of his tent in the plains of Mamre during the hottest time of the day, he didn't know that three angels would stop by. Yet, he'd met angels before and knew that they could appear at any time. *Lessons from my guardian angel*

Power quote #10

If you've ever dreamed of having highly connected relatives, your dream will come true once you realize what tremendous privileges you have as a precious child of God. *Lessons from my guardian angel*

Power quote #11

If you are patient, steadfast, obedient, diligent and follow

your guardian angel's directives, you will be richly rewarded. *Lessons from my guardian angel*

Power quote #12

Our guardian angel is always present and ready to respond to our needs. All we need to do is ask. The problem, however, is that most of us are too wrapped up in our own problems and too distracted to realize this truth and receive blessings. *Lessons from my guardian angel*

Power quote #13

There is a celestial hierarchy. It is a vertical hierarchy consisting of nine orders. Beings in the highest ranking orders are closest to God. The reason that there are different orders in the celestial hierarchy is because of the varying degrees (according to their capacity) with which beings partake of Divine Intelligence (i.e., God). *Lessons from my guardian angel*

Power quote #14

When you court spheres of influence, you get power. Your guardian angel is close to the most powerful and influential beings in the universe: God and his heavenly host. Spending time with your angel, therefore, is like spending time with God and beings who bear his image. *Lessons from my guardian angel*

Power quote #15

Angels put their whole trust in God. They consult with him regarding how to handle difficult situations. God doesn't send his holy angels on missions and say, "Good luck." There is ongoing communication between God and his angels during the mission. Angels check with God regarding how to act when needed. *Lessons from my guardian angel*

Power quote #16

Most of us live our lives hurrying to get things done. Not so with angels. Because they are eternal beings who reside in infinity, they don't have deadlines like we do. They are methodical and systematic taking as much, but not more, time as is needed to get the job done. *Lessons from my guardian angel*

Power quote #17

Bravery and fear are mutually exclusive. You're either brave or you're scared. In order to advance spiritually, you must have a fearless mindset. *Lessons from my guardian angel*

Power quote #18

We can present lies to others as well as to ourselves. Either way, truth and lies are incompatible. To tell the truth is not to lie; and to lie is not to tell the truth. *The truth about angels, Part I*

Power quote #19

In addition to being filled with peace and truth, heaven is filled with love. Love is intelligent, compassionate, creative and passionate and allows all the members of the community of heaven to maximize their potential. *The truth about angels, Part I*

Power quote #20

When I say “angels speak our language,” I’m not only referring to the fact that they can talk to us in the language we’re most comfortable with. I also mean that they are acutely aware of the problems we face both as individuals and as a society. *Lessons from my guardian angel*

Power quote #21

Angels are exuberant. There is no restriction to the joy they feel. And when they manifest, their joy spills out onto those who are present. *The truth about angels, Part I*

Power quote #22

Aside for providing material for a best-selling book about angels, the varied forms in which your angel manifests are designed to get you to see what’s behind the veil—the world of the spirit. *The truth about angels, Part I*

Power quote #23

In order to receive, you must open your heart. Cast aside doubt, suspicion and fear and take what your angel has to

offer. *The truth about angels, Part I*

Power quote #24

Your guardian angel is your caretaker. They take care of you in many different ways. They protect, love, guide and teach you as well as serving as your role model. *The truth about angels, Part I*

Power quote #25

Angels rejoice about God's creation. It is marvelous in their eyes. *The truth about angels, Part I*

Power quote #26

Angels are extremely flexible when it comes to transformations. They can appear young or old, male or female. *The truth about angels, Part I*

Power quote #27

What's it all about, Alfie? The bottom line is that it has everything to do with you. When you realize this, you will be able to accept manifestations much more easily. *The truth about angels, Part I*

Power quote #28

Angels can work on more than one mission at a time and missions can be in more than one country. *The truth about angels, Part I*

Power quote #29

When God sends an angel your way, it's to protect and help you live life more abundantly. *The truth about angels, Part I*

Power quote #30

Be patient. Patience is extremely important in angelic manifestations. Angels manifest when they want to, not when you want them to. *Trust in angelic appearances*

Power quote #31

The doorway to truth is the doorway to heaven. When the door opens and you're invited inside, you've entered the world where angels live. *The truth about angels, Part I*

Power quote #32

Although the resurrected Jesus was headed toward Galilee, he was almost instantly able to reverse course and appear before Mary. His transformed body, made from the same glory of which angels are made, could go anywhere and be anyone. In the same way that angels disguise themselves when operating in the material world of people, Jesus disguised himself as the gardener. *Lessons from my guardian angel*

Power quote #33

We can choose selfishness over selflessness, greed over giving and corruption over justice, but our actions will have

everlasting consequences. *Lessons from my guardian angel*

Power quote #34

In addition to being filled with peace and truth, heaven is filled with love. *The truth about angels, Part I*

Power quote #35

Angels are masters at performing transformations: the act of switching from one form to another. *The truth about angels, Part I*

Power quote #36

In all my interactions with my guardian angel, I have found them to be eager, ready and willing to offer me much more than I expected, imagined or believed I could accept. *The truth about angels, Part I*

Power quote #37

If only we could stop the constant ‘chatter’ that fills our minds—our thoughts, the thoughts of others and the media’s thoughts—we would discover a world filled with beauty, synchronicity and wonder. *Feast your eyes*

Power quote #38

Angels do not discriminate when appearing. We can all see them. There’s a difference, though, between seeing angels and recognizing them as such. *Visibility versus*

recognition in angelic appearances

Power quote #39

In their true state, angels are uninhibited and expansive. They don't exhibit the constraints that we do. Their love and ability to love is boundless. *Lessons from my guardian angel*

Power quote #40

Look, and you will see angels. Then, feast your eyes, for you are in the presence of the miraculous. *Feast your eyes*

Power quote #41

Although it's true that we must love our guardian angel in all of their forms, we must never fall in love with any of their forms. *The truth about angels, Part I*

Power quote #42

Whatever props angels need to navigate in the world of men and women are either supernaturally provided or acquired in the natural. *The truth about angels, Part I*

Power quote #43

Miracles happen much more often than we think. *Lessons from my guardian angel*

Power quote #44

Angels take their responsibility in appearing seriously and so should we. Seeing them means that we are actually

witnessing miracles. *Trust in angelic appearances*

Power quote #45

Your angel is closer to you than you may think. This is something worth getting excited about since he is ready to share his fourth dimension knowledge, ability and power with you today. *Are you ready to meet your angel?*

Power quote #46

Your guardian angel has the power to change how he looks because he comes from the fourth dimension. The fourth dimension is superior to our third dimension. *Are you ready to meet your angel?*

Power quote #47

Angels can do things that people can't. *The truth about angels, Part I*

Power quote #48

Your guardian angel is your ally. Not only do they help you with your heavenly assignment, but they also help you as you live your life. *The truth about angels, Part I*

Power quote #49

Regardless of your personal circumstances, your relationship with your guardian angel guarantees that there is light at the end of the tunnel. *The truth about angels, Part I*

Power quote #50

I look up to my guardian angel. They are my role model.
The truth about angels, Part I

Power quote #51

The project you work on with your guardian angel is a joint venture. Without their help, you would not be able to complete your heavenly assignment. *The truth about angels, Part I*

Power quote #52

The love you get from your guardian angel will purge whatever lies there are in you. *The truth about angels, Part I*

Power quote #53

The greater the trust between you and your angel, the more manifestations you'll experience and the longer they'll be.
The truth about angels, Part I

Power quote #54

The difference between a test run and a perfect manifestation can be compared to a partially open window and a door flung wide open. If you're loyal, patient and trustworthy, believe me, you'll see angels. *The truth about angels, Part I*

Power quote #55

Being unfaithful to your angel may cause them to temporarily (and possibly permanently) retreat from you. This will make you feel empty. You will no longer benefit from the intimacy of their presence. *The truth about angels, Part I*

Power quote #56

Angels do not discriminate when appearing. We can all see them. There's a difference, though, between seeing angels and recognizing them as such. *Visibility versus recognition in angelic appearances*

Power quote #57

One of the main stoppers to recognizing the angels among us is putting limitations on God's ability. God is extremely able. *Visibility versus recognition in angelic appearances*

Power quote #58

When we are invited into the world of angels, we come face to face with the marvelous ability and lovingkindness of God. In his angels, we see and recognize God's face. *Visibility versus recognition in angelic appearances*

Power quote #59

We associate heaven with the sky because it is elevated. Its elevation is both physical and moral. *The truth about angels, Part I*

Power quote #60

In order to see angels, you must be alert. Alertness is a spiritual state of wakefulness. “Sleepy” people can’t see angels; only “awake” people can. *The truth about angels, Part I*

Power quote #61

You don’t go for a walk or shopping hoping and praying to see angels. It doesn’t happen that way. Preparations are undertaken ahead of time, before a manifestation occurs. *The truth about angels, Part I*

Power quote #62

Supernatural beings that they are, angels have the ability to multitask. They aren’t simply manifesting for the sake of manifesting; they’re manifesting to get a job done. *The truth about angels, Part I*

Power quote #63

Angels love God and rejoice about everything he does. *The truth about angels, Part I*

Power quote #64

The process of receiving and incorporating manifestations and understanding your story will make you fall in love with your guardian angel even more. *The truth about angels, Part I*

Power quote #65

Angels take their integration into and engagement with our society seriously as should we. Angelic manifestations come at a price. Angels court danger in the course of performing their missions on Earth. The fact that they include us in this process shouldn't be taken lightly. We should be grateful for being included in this miraculous process. *Trust in angelic appearances*

Power quote #66

The missions that angels perform often involve great danger. Knowing more than you need to, therefore, can unnecessarily put you in harm's way. So, don't try to figure it all out, even if you start getting a pretty good idea about what's going on. Just relax, obey, go with the flow and don't rock the boat. *The truth about angels, Part I*

The "5 don'ts" to seeing and recognizing angels

1. Don't underestimate God.
2. Don't doubt.
3. Don't worry.
4. Don't hurry.
5. Don't second guess your angel.

Visibility versus recognition in angelic appearances

The “10 keys” to trust building

1. Follow directions. In angelic encounters, it's very important to follow your guardian angel's lead.
2. Don't make any sudden moves or behave unpredictably. Remember, trust is based on predictable behavior.
3. Be sensitive to how a manifestation unfolds. Circumstances and external factors count.
4. Behave appropriately. The fact that you're being included in angelic appearances doesn't put you on an equal footing with angels. We are 'a little lower than the angels.' (Psalms, 8:5, KJV)
5. Pay attention and remember what you see. This will make your guardian angel trust you more and show you more.
6. Remain calm during angelic manifestations. No good can come out of agitation.
7. Trust God. Have faith that as you sensitively participate in angelic appearances, you will grow in trust and more will be revealed to you appropriately.
8. Relish your guardian angel's love.
9. Be patient. Patience is extremely important in angelic manifestations. Angels manifest when they want to, not when you want them to.
10. Allow the glory of the angels you see to rub off on you. This will help you be perfect as your Father is in heaven. (Matthew 5:48, KJV)

Trust in angelic appearances

Epilogue

The truth about angels is that when they come to our planet, they look so human that it's almost impossible to tell the difference. If you want to know how they do it in detail, you'll need to read my books.

THE END OF
THE LITTLE BOOK OF ANGEL QUOTATIONS
